

XSTAGE Xenon Short-arc Lamps

Areas of application

- Spotlights
- Searchlights
- Solar Simulation

Product features and benefits

- High luminance with rugged, compact design for spotlight applications
- Color temperature approximately 6000 K simulates daylight
- Continuous spectrum in the visible range
- High arc stability
- High arc stability
- Dimmable in a wide range
- Hot restart

Product family datasheet

Xstage XENON SHORT ARC LAMPS for ENTERTAINMENT

Product family datasheet

Technical data

| | Electrical Data | | | Lifetime Data |
|---------------------|-----------------|-----------------|-----------------------|------------------|
| Product description | Nominal wattage | Nominal voltage | Current control range | Nominal lifetime |
| Xstage 4000 W OFR | 4000 W | 30 V | 80135 A | 650 hr |
| Xstage 7000 W OFR | 7000 W | 40 V | 110165 A | 650 hr |

Product family datasheet

Safety advice

Because of their high luminance, UV radiation and high internal pressure in both the hot and cold state, Xstage lamps must only be operated in enclosed lamp casings specially constructed for the purpose. Always use the supplied protective jackets when handling these lamps. They may only be used as open lamps if appropriate safety measures are taken. More information is available on request or can be found in the leaflet included with the lamp or the operating instructions.

Application advice

For more detailed application information and graphics please see product datasheet.
